Art Unit: 1616

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 6,294,229 published 25 September 2001 with a filing date of 20 August 1999 and a foreign priority filing date of 21 August 1998.

The reference teaches a film for optical elements having an upper polarizing plale and a lower polarizing plale. The film can be a single crystalline film.
